Experience

Hanuut Express [<https://hanuut.com>]

Co-Founder and Lead Developer

2022 – 2024

- Co-founded a small e-commerce startup, developing a platform for shops to sell products online
- Created a basic delivery system to support the platform's operations
- Gained valuable experience in team dynamics and meeting project deadlines
- Improved technical skills while working in a fast-paced startup environment

Self-Directed Learning in Software Development

Learning

2020 – 2022

- Embarked on an intensive two-year self-learning journey to gain comprehensive skills in software development
- Mastered key areas including:
 - Frontend and backend development
 - Database management and API design
 - Software development best practices
 - Linux operating system and basic networking
 - Data structures and algorithms
- Developed practical projects to apply and reinforce learned concepts
- Cultivated a robust foundation for a career in full-stack development

Education

Master's Degree in Bio-informatics

University of Science and Technology Houari Boumediene (USTHB)
Currently pursuing
